

# Linux Ubuntu can be adapted for other linux distro's

## Install Instructions

1. Extract content-creator.zip

jdk

lib

default.pdf

presenter-  
swing.jar

run.sh

2. In new content-creator folder give the file run.sh execute permissions
  - Right-click run.sh -> properties -> permissions -> select "allow executing files ...."
  - Or in terminal execute `chmod a+x run.sh`
3. In terminal execute `./run.sh` or see the SO answer to enable run with double click
